Week9&10 Report - Yun Chen

name: Yun Chen
student id: 1412174
Date: 28/9/2025

I also uploaded the week 9 report in the week 9 folder

1. Week 9 Work Completed

- **Job Time Range Validation**: Added checks in `SessionServiceImpl` and `StudentTimeSlotServiceImpl` to ensure requests fall within assignment start–end dates. https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/37bcbc3d73b7a1a1056e884fb19fc385a2b172ae
- **Examiner-Specific Session Listing**: Implemented `listExaminerSessions` in `ExaminerController` and `SessionServiceImpl`, including examiner validation, job range checks, and filtering. https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/ab9f17deccb9619629a3e5b16146d2bdf1958cd0
- **Data Enrichment**: Added `totalRequiredExaminers`, `enrolledStudents`, and `enrolledGroups` fields in `AdminSessionsListResponseDTO` and populated them via `SessionServiceImpl`. https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/6ab17786ea588644f45992c4899b7bdd84cccc1b
- **Examiner Assignment Query**: Introduced `listAssignmentIdsByExaminer` in `AssignmentParticipantMapper` and integrated it in `ExaminerSelfServiceImpl` for assignment participation retrieval. https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/d583ca71800f9879bf1c4e0f2e0efb966c78024d
- **Scoring Validation Optimization**: In `SaveAssessmentDraftRequestDTO`, enforced mandatory fields (`inputPoints`, `selectedLevel`); enhanced validation in `AssessmentServiceImpl` to ensure consistency. https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/ce7451d8940468f8f4f9e3d0e1642aee34de0b56
- **Refactoring & Counting Logic**: Refactored `AssignmentMemberServiceImpl` to count examiners and students

based on sessions (rather than time slots), ensuring accuracy.
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/abca0771cdb73d5123bcb712de175e330d447b97

- **State Management**:
  - Defaulted new assessment submissions to *DRAFT*.
  - Updated `ExaminerSelfServiceImpl` status checks from *RETURNED* to *REOPENED*, better reflecting workflow semantics.
    https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/8ac105c39cca6ceb748da642e59f00481fd08fb0

Total : 9h

2. Mid-Break & Week 10 Work Completed

1. Support for mixed-type (MIX) assignments, updated related data structures and processing logic
   - Added support for mixed-type assignments in CsvController, allowing preview and import of mixed-type CSV files.
   - Updated the RubricMetaInfo class to add weight and grading criteria fields for mixed-type assignments.
   - Added assignment type fields to GroupDetailDTO and GroupSummaryDTO to support mixed-type assignments.
   - Added member assessment information to SessionStudentsResponseDTO to support mixed-type individual assessments.
   - Updated AssessmentServiceImpl to handle submission logic for mixed-type assessments.
   - Updated support for mixed-type assignments in related services and mappers to ensure data consistency and integrity.
   https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/1e70f40849c0b8c22931dc4e0008f4d64c8fb7e7

2. Updated the draft assessment saving API to support mixed-type assessments
   - Modified the API description to clarify how individual, group, and mixed assessments are handled.
   - Added support for mixed-type assessments, allowing for simultaneous saving of group and individual assessments.
   - Added the IndividualStudentScore class, which contains student ID, feedback, and score information.

- Updated the SaveAssessmentDraftRequestDTO to add the individualScores field to support individual scores for mixed-type assessments.
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/738651c72eaeeea5beeb46c6e80642fd5cb7aa0a

3. Added a student field to GroupCSVRequestDTO and updated GroupServiceImpl to use it.
   - Added a new field, student, to the GroupCSVRequestDTO class to map to the "Student" column in the CSV file.
   - Updated the student ID extractor in GroupServiceImpl to use the new student field instead of the original name field.
   https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/a0775d03f4840c04f3ca6170853d331cbdb1460f

4. Updated GroupCSVRequestDTO and GroupServiceImpl to support new field mappings
   - Added new fields id, studentId, sisUserId, and sisLoginId to GroupCSVRequestDTO to map to the corresponding columns in the CSV file.
   - Updated the student ID extractor in GroupServiceImpl to use the new studentId field instead of the old userId field.
   - Adjusted logging to reflect the new field usage.
   https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/377e0b96ab861e23b6dcea849191d7d8bcddfaa8

5. Added logic for handling existing students in GroupServiceImpl.
   - Added a new method called processExistingStudents to handle existing students and add them to assignment participants.
   - Updated the addToAssignmentParticipant method to ensure that students are the only participants in an assignment.
   - Adjusted logging to reflect handling of existing students.
   https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/656b4cc02f357f7dbd6d8f75aa0aeb359b738e82
6. Fix bugs:

    a. Updated ExaminerServiceImpl to use email as the user unique identifier and simplified the creation logic of user and examiner records. Added checks for missing fields to ensure data integrity.
    https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/4b970480e964b5a5337ca8159d1064d23640ab89

    b. Added new grading criteria validation errors to the business error enumeration, updated AssessmentSubmissionDTO to include an adminNote field, and implemented new grading criteria validation logic in AssessmentServiceImpl and AssignmentServiceImpl to support

unified format grading criteria validation.
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/6a8199aa66ad921ef02d0cc44d3b9d2d29c48498

c. Added update logic for individual and group assessment submissions in AssessmentServiceImpl, supporting updating timestamp and score information when a submission exists, while also handling normalization and validation of scores.
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/ca4554031249242395505 13ae3627ac210977148

d. Added functionality to the AssessmentSubmissionMapper to check for session and examiner submitted assessments. Updated AssignmentMemberServiceImpl, SessionServiceImpl, and StudentTimeSlotServiceImpl to verify the existence of submitted assessments when canceling a member or examiner.
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/9b8ccdf65235a72e8faa16c1ae981572b111439f

e. Updated AssessmentSubmissionMapper and related services, modified annotations to clarify checking the status of an assessment record (draft, submitted, published, or reopened), and ensured that the existence of an assessment record is correctly verified when removing a member or examiner.
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/c30cd6a969ba5fc0a51126a8fa1814b92714a11a

f. Update GroupCSVRequestDTO to clarify field mappings and adjust GroupServiceImpl to use loginId for email generation, enhancing code clarity and consistency in CSV processing.
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/2b9ecc0c49e8aabc96ea08f5ba932a4c794e92c8

g. Optimize group creation logic in GroupServiceImpl by batching queries and inserts, improving performance and reducing database load during CSV processing.
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/07cd13e04b3ff36e0c8473f7385351189518 05e3

h. Enhance CSV import validation in BaseCsvImportService and GroupServiceImpl by adding username checks and updating field mappings, improving data integrity and consistency during student data processing.
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/1626f95bd6b41afc87dc045d1f996dd0e953bcdf

7. Implement CSV import history management with new CsvHistoryController, service, and entity. Added functionality to save, query, update, and delete CSV import records, enhancing the CSV import process with user tracking and error handling.
   https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/860e0fa7f2f3a093e6973a1d1bc613888981004d

8. Enhance CSV import functionality by caching file bytes for multiple reads and adding a new method to save CSV files from byte arrays, improving performance and flexibility in handling CSV imports.
   https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/1e87ca1736cd7801b2eaba7149648ca915cd48e0
   https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/0e913b4f0cb5b1a6904f9ef7c3c83e81238ae817
   https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/c7c5b04e1aced1cde7deb1299a438efcf4ffa263

9. Implement re-import functionality for CSV imports, allowing for the removal of participants and groups not present in the new CSV data, enhancing data integrity during updates.
   https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/3bf1ff93e3b69daf1c8a47de8ca0b17da20b1dbe
