Weekly Report (Week 12)

Ian Chi [1579898]

Q1: Project Contributions and Individual Achievements

This week, I focused on finalising the project deliverables and preparing for the final presentation as part of the four-member presentation team:

Final Presentation Preparation:

- **Slide Refinement:** Collaborated with three other team members to review and refine the final presentation slides, ensuring consistency in messaging and visual design across all sections.
- **Speech Practice:** Participated in multiple practice sessions with the presentation team to rehearse timing, transitions between speakers, and overall delivery flow.
- **Prototype Final Refinement:** Worked on final adjustments to the prototype to ensure it effectively demonstrates the key features and user flows for the presentation audience.

Team Coordination:

- Coordinated with team members to establish clear responsibilities for each section of the presentation and ensure seamless handoffs between speakers.
- Participated in team discussions to finalize the narrative structure and key messages for the final presentation.

Time Allocation: (Total: 9.5 hours)

- Slide refinement and content review: 2 hours
- Speech practice sessions: 6 hours
- Prototype final refinement: 1.5 hours

Q2: Challenges Encountered

- **Content Balance:** Ensuring the presentation effectively showcased both technical achievements and business value within the allocated time constraints required multiple iterations.

Q3: Planned Activities for Next Week

- Holiday

Evidence of Work
