Benyuan Wang - Week 3 Report

Benyuan Wang, 1492846

1. Tasks Accomplished This Week

- Tested part of completed API with Weiran, and discussed with weiran to assign our testing tasks. (5 hours)
- Took part in this week's mentor meeting and team meeting, and actively took on testing tasks. (2 hours)

2. Key Issues Encountered

- Waiting for deploying and connecting between backend and frontend to take system and manual tests.

3. Plan for Week 4

- Continue to contribute to testing.
- Design and write functional test cases for the current features.
