Q1

> What you have done for the project during the week and what you have achieved/delivered individually?

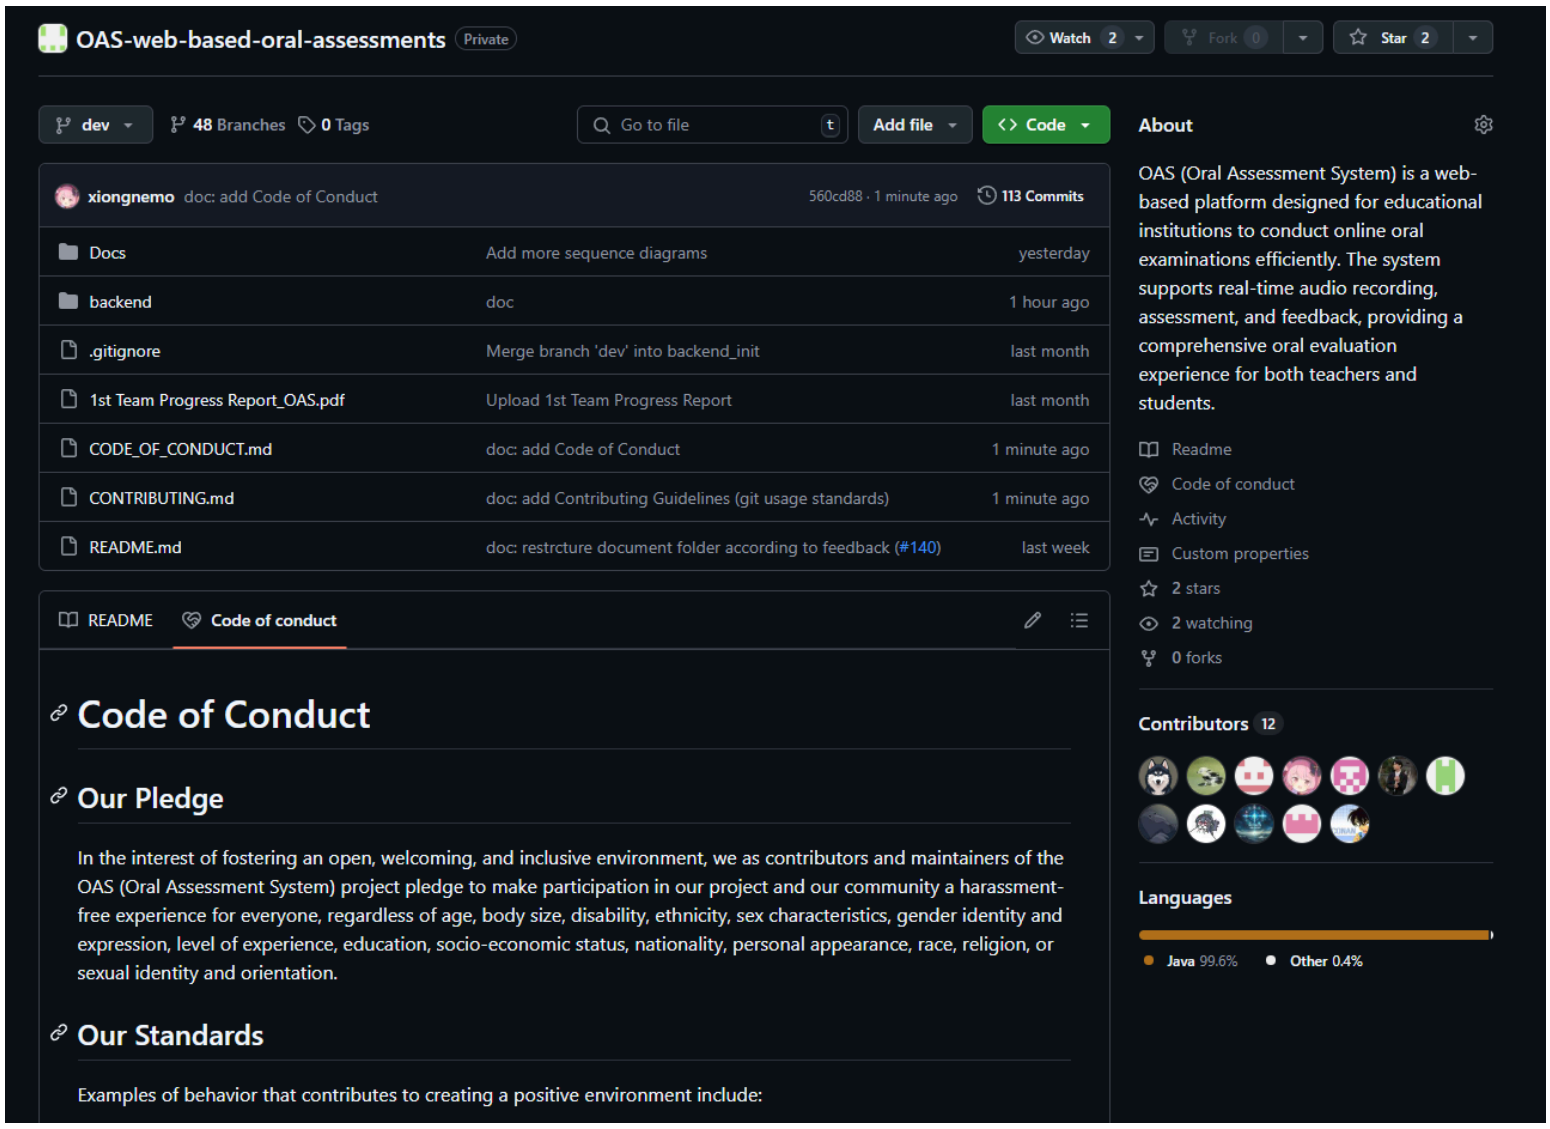

- What I've done for the project during the week:
  - Attending weekly group meetings. (~1 hour)
  - 

- Individually...
  - Drafted Product Requirements Document to better structure development goals (Feature Branch 183-product-requirements-document, commit 3f410b), (~2.5 hours)

  - Developed and implemented a Code of Conduct for the project team (~1 hour)
    - Defined acceptable behavior and communication standards
    - Outlined enforcement procedures and development standards
    - Incorporated university-specific requirements

Q2

> List 2-3 key issues you may have encountered and give reasons if applicable.

- Current branch rules seem too strict. Need to let the team behave more frequently on GitHub or just to make the rules more permissive.

Q3

> What you plan to do for the project next week individually?

- I plan to do the following for the project next week:
    - Update our wiki generator with more emojis.
    - Derive a new solution on our database design according to the client's new requirements.
    - Do GitHub housekeeping.
    - Poll on other branch standard if we are in doubt.
    - Collaborate on PRD documents, as in the meeting minutes and documents on Teams.
