Benyuan Wang - Week 4 Report

Benyuan Wang, 1492846

1. Tasks Accomplished This Week

- Focused on the Epic2 and Course API:(13 hours)
    - Tested negative cases, including missing files and invalid type values.
    - Retrieve Courses (GET /api/courses): verified pagination, filtering, and empty dataset handling.
    - Update Course (PUT /api/courses/{courseId}):
    - Verified successful course updates with a complete request body.
    - Tested invalid courseId and missing mandatory fields.
    - Consolidated all executed test results into standardised markdown test cases.
    - Collaborated with backend developers to validate updated request mappings and confirm issue resolution.
- Took part in this week's mentor meeting and team meeting, and actively took on testing tasks. (2 hours)

2. Key Issues Encountered

- None.

3. Plan for Week 5

- Continue to contribute to testing .
- Mainly about frontend.
