Weekly Report - Tianyun Lei

Student Name: Tianyun Lei
Student ID: 1454701

Tasks Completed This Week

1. Course List Backend API Integration (1 hours)

GitHub Link: https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/ed7342541ccc9666b1df07407041ba22b9d8558e

- Integrated `/api/courses` endpoint with frontend Course List component
- Adjusted parameter mapping between backend response and frontend display
- Modified UI components for proper data rendering

---

2. Assignment List Backend API Integration (1 hours)

GitHub Link: https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/4bc0ceb000b92abc73277fdb31842fd08404806b

- Integrated assignment list APIs with frontend components
- Enhanced assignmentService to handle backend data structure
- Optimized UI for assignment data display

---

3. Assignment Page Duplicate API Calls Bug Fix (2 hours)

GitHub Link: https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/c5c397a195f4f0922dfaacef07d823b1884fcff8

- Identified and resolved duplicate API calls causing rendering errors
- Centralized API requests to page.jsx level
- Unified API calling pattern from hook-based to page-level calls
- Improved application stability and reduced backend load

---

4. Assignment Update API Integration and Backend Bug Fix (2 hours)

GitHub Link: https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/175b8cafa94dac9d704070a28845866d49bd56b8

- Integrated assignment update/edit functionality with backend API

- Discovered and reported backend bug with field handling
- Collaborated with backend team to resolve the issue
- Enhanced assignment editing workflow

Key Issue Encountered

- **Duplicate API Calls**: Resolved complex issue with multiple API calls causing rendering problems
- **Backend Compatibility**: Addressed backend bug where missing fields were set to default values
- **Data Mapping**: Ensured proper parameter mapping between frontend and backend systems

Next Week Plans

- Continue with remaining API integrations
- Prepare for next phase development
