Weiran Xu - Week 3 Report

Weiran Xu, 1454343

1. Tasks Completed This Week

- Coordinated with Benyuan on how to divide our testing tasks. (1.5 hours)
- Cooperated with Benyuan on discussing how to test our APIs and tested part of the API. (3.5 hours) link
- Set up the backend environment on a new PC. (2 hours)
- Joined this week's mentor and team meetings, and actively engaged in testing-related duties. (2 hours)

2. Key Challenges Encountered

- My old MacBook cannot run the backend project, even though all the settings and configurations were the same as others. I consulted with Benyuan, Yongchun and went through the internet tutorials, but still cannot fix it. Luckily, I have another Windows PC and it worked fine with the same configuration.

3. Plans for Next Week

- Continue contributing to test completed APIs with Benyuan.
- Develop test cases for other features.
- Discuss with the backend team for unit testing.
