# Week 6 Report

Yanqing Shi 1511676

## Tasks Completed

- Completed the discussion of the final Prototype theme (Determined as the Figma shows).
- Completed the general design of the Marking function and the Booking function structure (The draft structure design was done by hand, like the image below, so there is no link to this section).

- Completed the Hi-Fi prototype design of the Marking Dashboard part and the Edit Rubrics part of the Marking function (Page–2 of Figma).

## Issues Encountered

- Need to determine if want to set the Rubric during the assignment creation phase. Waiting to discuss this with Haocheng and Ian. (Resolving)
- The design work of Marking function and Booking function prototype is heavy, and help from other members may be needed in the future.

## Plan for Next Week

- Complete the Hi-Fi prototype design of Marking and Booking functions as far as possible.
- Prepare for Thursday's Presentation.
