Week6 Report - Yun Chen

name: Yun Chen
student id: 1412174
Date: 7/9/2025

1. Work Completed

1. Before Thursday, mainly implement features and fix bugs for the MVP demo of the client meeting, including:(10h)

- Completed the examiner CSV batch invitation https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/868055a7a50836b2751ce8befab8be2ed6987107
- Fixed time slot related bugs https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/7a16f067cfa4856470fedc07429d31a106c8be27）
- According to the changes in PO's requirements, the venue type was modified. The data originally crawled from the school database was modified to be bound to the assignment and created by the course admin.

https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/b9364054da20fab848163447b64df9e52d5cc3fc
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/82b1b945078a501fa6c58cb546a014161731f189
https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/9da996bd18aaff4f5cad68845f5e1b16b25d74e7

- Modified the time slot filter query to support returning time slots within a specific time range. Also modified the batch creation logic to add conflict detection https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/990c8d4aa8755974a56f309347d2a7e051972140
- Added logic to directly assign examiners when modifying time slots. https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/e1efab808972a751742fb70bb2a144323513b746
- According to the requirements of the front-end, additional information is added to the getCalendar interface to reflect the allocation of the examiner. https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/db0ca61fb9ba56f609395162a8465332e0f78746

2. Participated in the client meeting and learned about the client's new needs（1h）

3. Based on the changes discussed in the client meeting, I have redesigned and updated the time slot and session parts as follows:（4h）

- The concept of **time slot** is no longer needed. Data related to time slots will not be stored, but the functionality of **batch-generating sessions from time slot data** should be retained.
- Multiple sessions can exist at the **same time** as long as they are assigned to **different venues**.
- Sessions will now have two publishing states: **published to examiners** and **published to students**. During the first stage (published to examiners), session attributes can still be modified.
- The **same examiner** cannot be assigned to different sessions that **overlap in time**.

https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/commit/cb7c494d602ee3ee6b879f0c39cb0abfa4537ac2

Total : 15h

2. Next Week Plan

- **Fixed some bugs (if identified by the testing team).**
- **Complete the new requirement regarding time slot and session.**
- **Complete Epic 3**
