Yunpeng Xiong Weekly Report (Semester 2, Week 8)

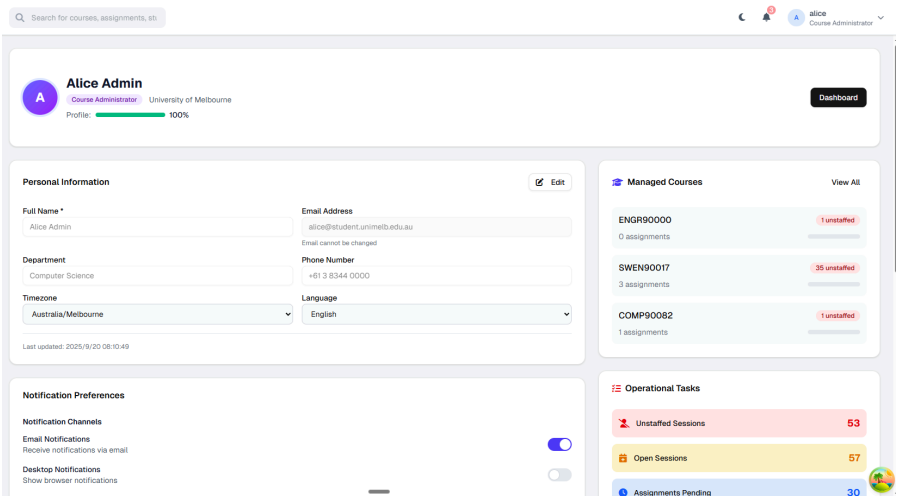

> Yunpeng Xiong 1513076

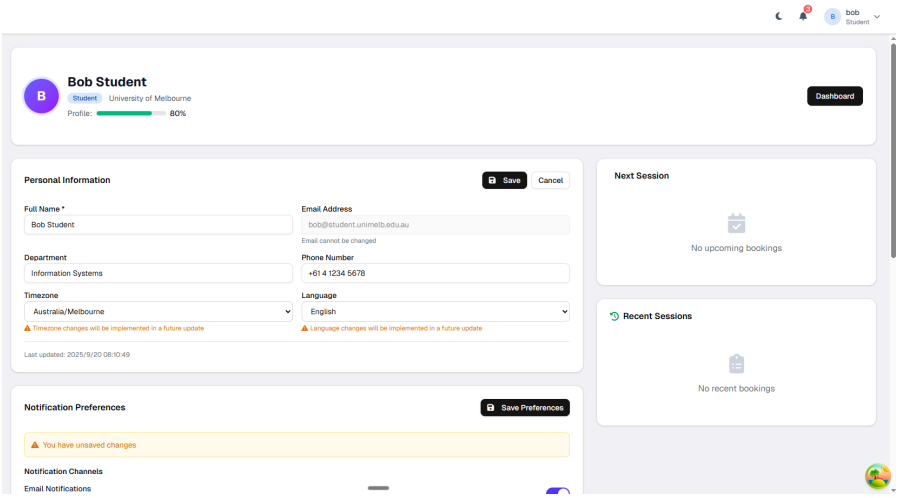

Q1

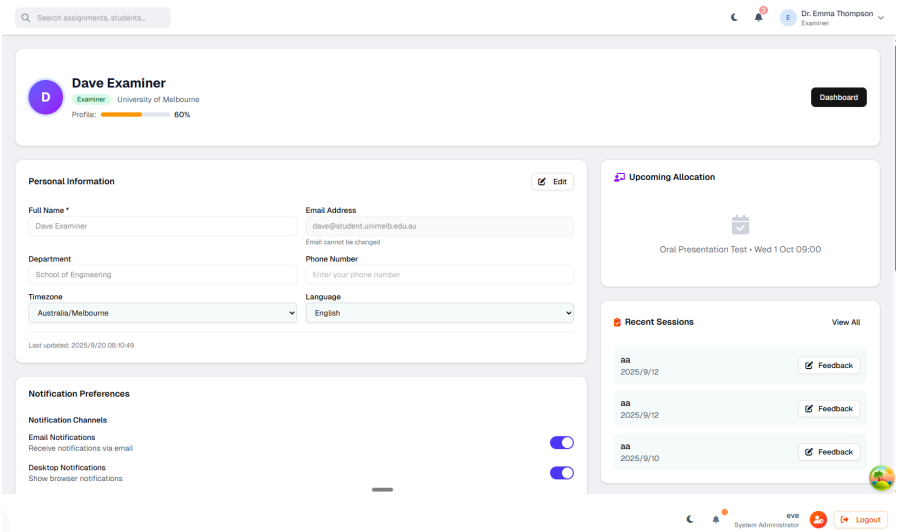

> What you have done for the project during the week and what you have achieved/delivered individually?

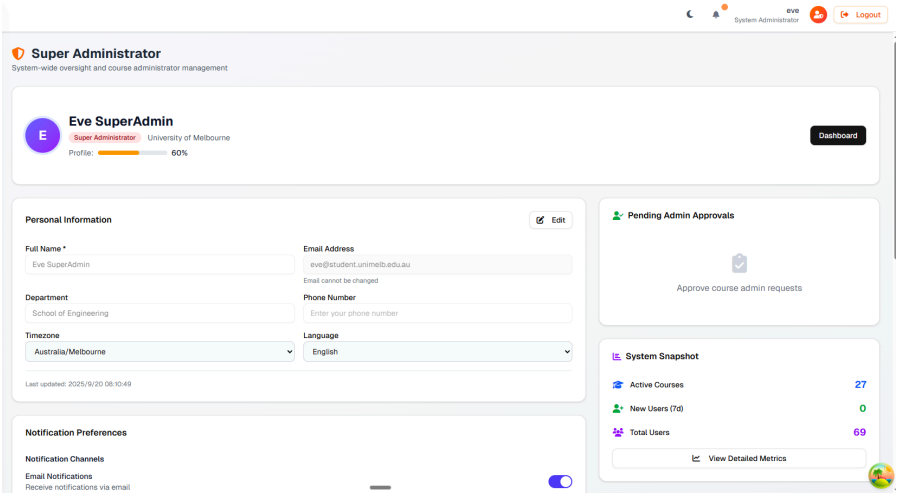

- What I've done for the project during the week:
  - Attending weekly mentor and team meetings. (~2 hours)
  - Monitor backend members on their allocated use cases (~4 hours)
- Individually...
  - Implement Profile, backend and frontend (~20 hours):
    - PR is at https://github.com/SWEN90017-2025-SM1/OAS-web-based-oral-assessments/pull/362
      - Backend:
        - /api/profile/me now delivers populated role widgets from ProfileWidgetService, letting the revamped Profile Page render the dynamic cards it was designed for (backend/src/main/java/org/swen90017/oas/service/impl/ProfileServiceImpl.java:181, backend/src/main/java/org/swen90017/oas/service/impl/ProfileServiceImpl.java:206).
        - Implementation plan documents the widget integration status plus follow-up work (hardening, telemetry, tests) so future contributors have an explicit roadmap (Docs/Design/Profile-Page-Implementation-Plan.md:37).
        - Onboarding registration normalises the user display name and always inserts/updates a user_profile row with defaults and completeness scoring, ensuring the Profile Page has clean data on first load (backend/src/main/java/org/swen90017/oas/service/impl/OnboardingServiceImpl.java:224, backend/src/main/java/org/swen90017/oas/service/impl/OnboardingServiceImpl.java:303).
      - Frontend: Delivers a unified, role-aware experience that:
        - Meets all design specification requirements
        - Maintains consistency with existing application patterns
        - Provides a solid foundation for future enhancements (i18n, avatar uploads, advanced security features)
        - Offers excellent user experience with clear feedback and intuitive navigation

- Manage GitHub:
  - Manage weekly report (~1 hour)
  - Review PRs (~2 hours)

Q2

> List 2-3 key issues you may have encountered and give reasons if applicable.

- Nope.

Q3

> What you plan to do for the project next week individually?

- I plan to do the following for the project next week:
  - Continue to co-operate with frontend leader & product team to get a better view of the product flow itself.
  - Continuous technical support for the whole team.
  - Implement the feedback from Progress Assessment 1 from Geela.
