Yongchun Li - Week 12 Report (*1378156*)

1. Tasks Accomplished This Week

1. Participated in the semester presentation (2 h)
2. Solving conflict in feature branch with recently merged pr(3h)
3. Planing next moves while review other members' code, commenting insights about class design.(1.5h)

2. Next phase plan

1. Will focus on delivering full-stack integration by the end of the semester, with possible further development or consolidation of existing resources for release.
2. Will engage in front-end observation and learning to understand the code organization paradigm from HTML to React, aiming to bridge the business understanding gap between front-end and back-end teams.
