1. Tasks Completed

1. Write code for Epic 5 user story about examiner timeslot assignment. (8h)

   List Assignments Available to Examiner

   - Returns paginated list of assignments with examiner capacity info and signup deadlines

   List Timeslots for Selection

   - Shows available time slots for an assignment with venue details and availability status

   Assign Examiner to Timeslots (Bulk)

   - Allows bulk assignment of examiner to multiple time slots with validation and partial success support

   Get Examiner Schedule

   - Retrieves examiner's current schedule with booking status and withdrawal permissions

   Unassign Examiner from Timeslot

- Removes examiner from a specific time slot with validation for student bookings and session timing

2. Attend weekly meeting and the meeting about epic 5 issues. (3h)

2. Key Issues

Did some same work as my backend teammate due to lack of communication.

3. Plan for Next Week

- Wrap up Epic 5 user stories.
- Conduct integration testing with the frontend.
