## Q1

> What you have done for the project during the week and what you have achieved/delivered individually?

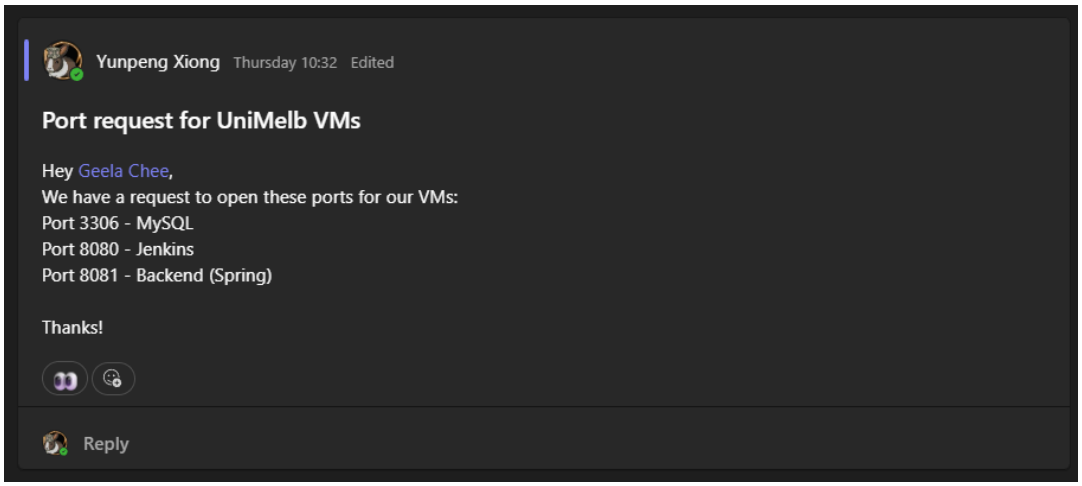

- What I've done for the project during the week:
  - Attending the meetings & participate in discussions.
  -
- Individually...
  - Setting public hostname for Jenkins on VMs

    Visit it on https://jenkins-oas1.anzupop.com/ :

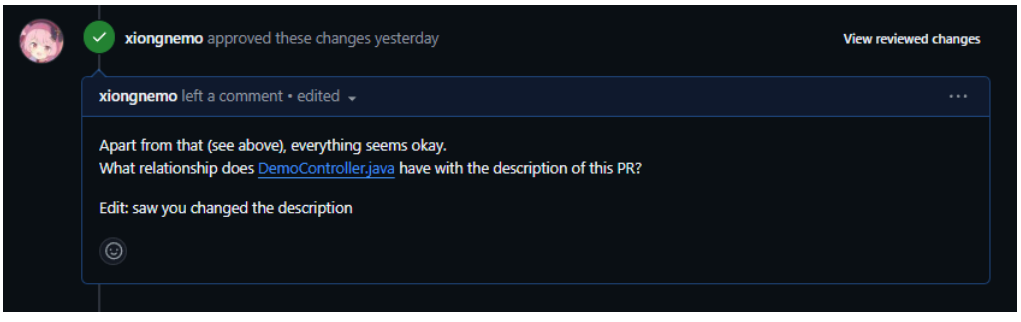

- Tuning VM ports and submit request:

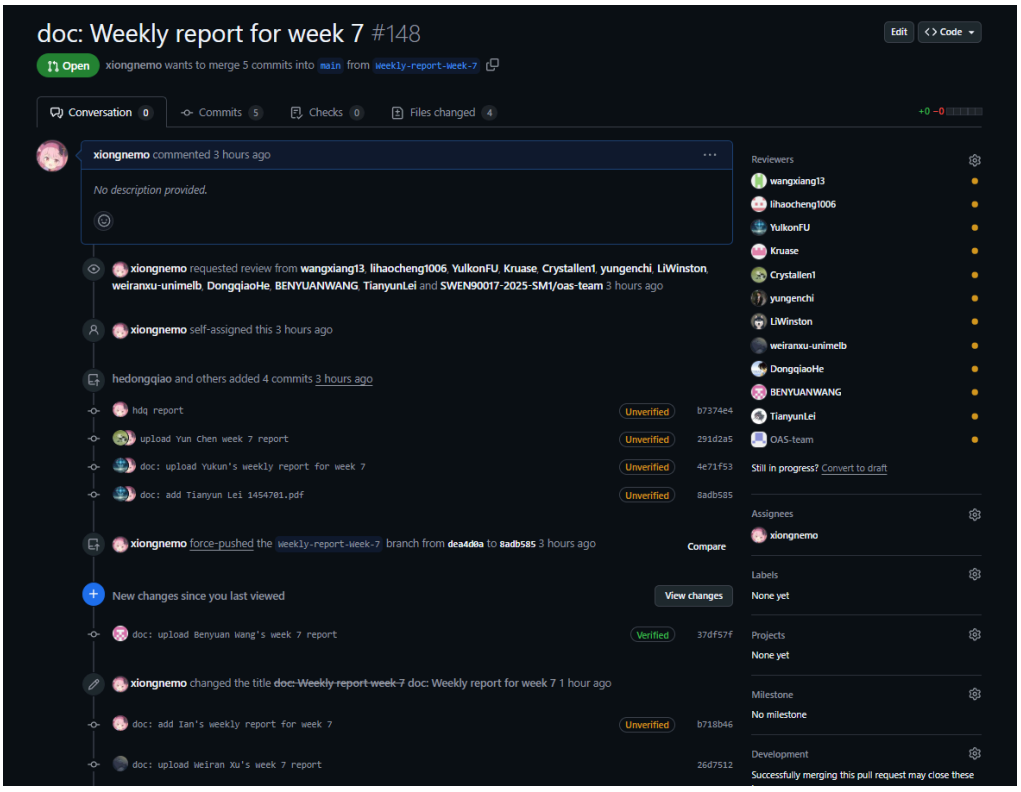

- Manage GitHub:
  - Review on PR:

  - Manage weekly report:

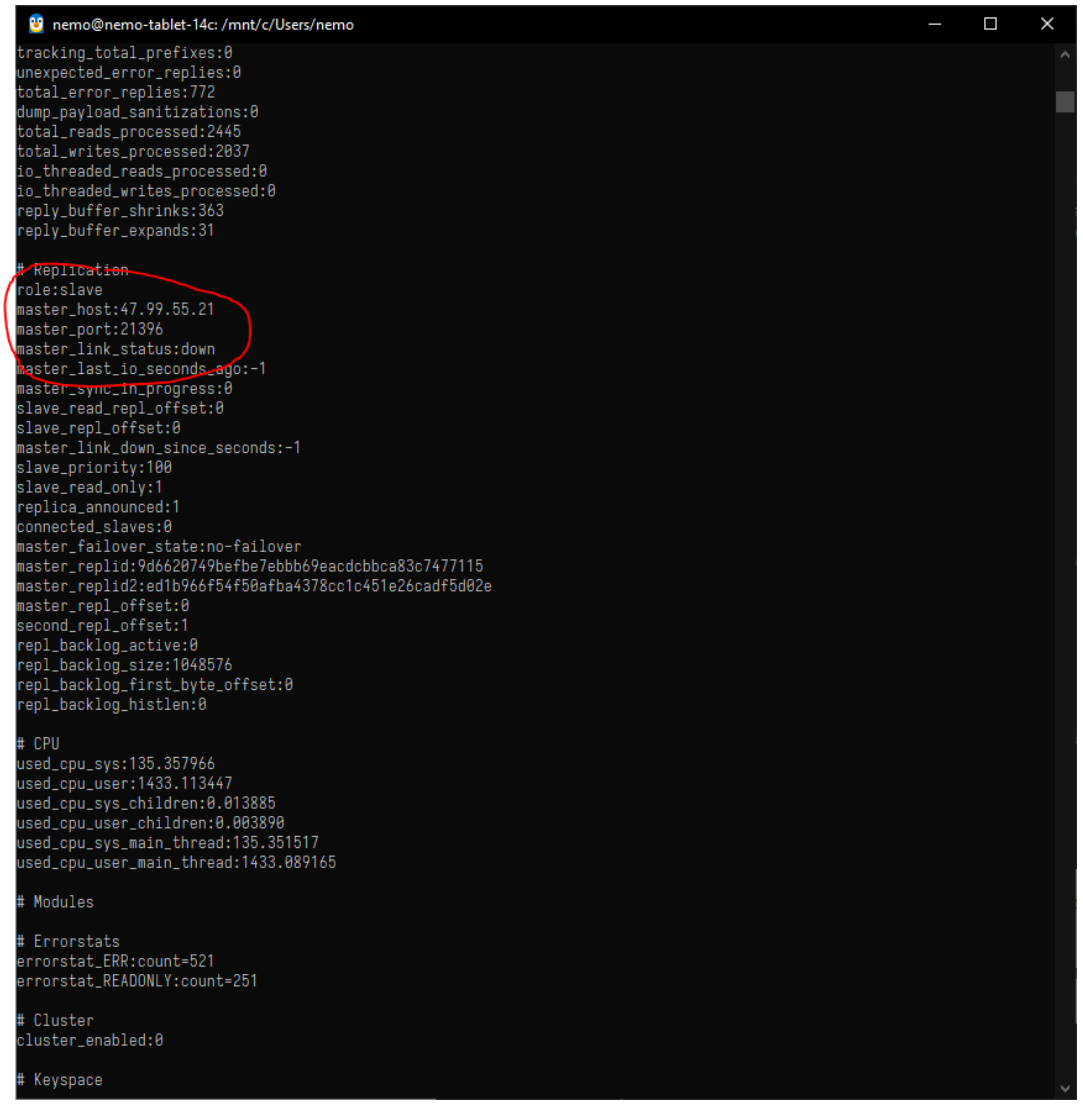

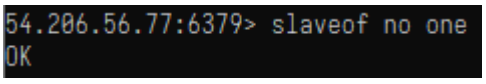

- Inspect development environment: saw from above discussion on the PR, I inspected the possible sensitive or vulnerable Redis instance used for development by performing a manual check & fix on that endpoint:

# Q2

> List 2-3 key issues you may have encountered and give reasons if applicable.

- No.

# Q3

> What you plan to do for the project next week individually?

- I plan to do the following for the project next week:
  - Update our wiki generator with more emojis.
  - Test on mock deployments with Dongqiao and other backend teams.
  - Do GitHub housekeeping.
  - Check whether we can have ownership on the repo.
  - Check with Geela whether we can open the port.
